

# Cover with blue sheet to avoid tire marks

Cut the length 2.5m

Prepare 2 ropes 3.5m/each, treat the edge with lighter

Fold in three and each width 60cm and put two ropes though inside

Move boom lift to the center of the sheet

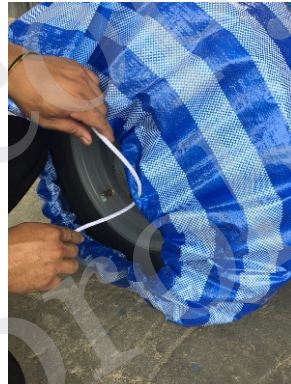

Middle position as shown

Bring a sheet to cover the tire

Make holes in the sheet so that you can tighten the sheet

String the rope into the hole

Tie as tight as possible like a star shape

On the back side, tie loosely so that wheel can go around smoothly
